One lighting solution for all battery packs

// SCANGRIP is proud to present a complete range of outstanding and one-of-a-kind work lights compatible with all 18 V/20 V battery packs from leading power tool brands worldwide.

- Work lights compatible with 18 V/20 V battery packs from all leading power tool brands
- Smart connector with BATTERY SAFETY SYSTEM
- Extremely powerful illumination and high durability

With the unique SCANGRIP CONNECT concept, you have complete freedom to choose the SCANGRIP work light that fits your needs regardless of brand preference.

A new invented smart CONNECTOR is designed for each power tool brand. Simply mount the CONNECTOR to the work light, attach your battery and you are ready to work. A BATTERY SAFETY SYSTEM protects the battery pack and makes it safe to use.

The SCANGRIP CONNECT range is designed for the demanding professional user and provides the latest COB LED technology, extremely flexible design and high durability. A ground-breaking lighting solution never seen before!

NEW

// Maximal freedom

The SCANGRIP CONNECT range is compatible with the METABO/CAS battery system* and all other 18 V/20 V battery packs from leading power tools brands. As something unique, we also offer a POWER SUPPLY which can be used for direct power providing unlimited availability to light. With stands and suspensions available, the work lights can be placed anywhere you need efficient lighting offering complete flexibility at the worksite.

Use your 18 V/20 V battery pack for SCANGRIP CONNECT work lights

Convert your SCANGRIP CONNECT lamp to a corded model with the POWER SUPPLY

An integrated battery backup function prevents you from being without light at any time

(Applies to NOVA 4 CONNECT, NOVA 10 CONNECT and AREA 10 CONNECT)

*Compatible with **METABO / CAS** battery system
For ME TABO / CAS no connector is required

ORIGINAL SCANGRIP
SINCE 1906

SMART CONNECTOR

// SCANGRIP has developed a unique CONNECTOR for each individual power tool brand that fits 18 V/20 V battery packs. Simply mount the CONNECTOR to the work light, attach your battery and you are ready to work.

BATTERY SAFETY SYSTEM

- Automatic discharge protection
- Overload protection
- Temperature surveillance
- Protected by design patent
- Approved by TÜV Rheinland

The BATTERY SAFETY SYSTEM protects the battery pack and makes it safe to use. The safety system features an automatic discharge protection, overload protection and temperature surveillance which means you can use your 18 V/20 V battery pack again and again without damaging it.

The SCANGRIP CONNECTORS are protected by design patent and approved by TÜV Rheinland. Each CONNECTOR is sold under separate item numbers and individually designed to fit each power tool brand.

// Customisable lighting solutions

To ensure maximum functionality of the work light the body is equipped with a new invented, flexible mounting system. The system provides a combination of a strap, a hook, and a magnet in one unit. The strap is made of polyurethan which is both flexible, and durable with a smooth surface. By the snap hook at the end of the strap you can lock and fix the work light to any position. In the same way, the integrated magnet can be used to mount the work light body at any metallic surface available. The magnet is extremely powerful with a force strong enough to hold both body, light head, and battery.

Built-in strap with snap hook and magnet for suspension

The new high-performance MULTILIGHT CONNECT concept is based on the idea of combining a basic handle as known from power tools with a range of different work light heads which can be used and exchanged according to different applications.

MULTILIGHT CONNECT provides you with complete freedom to choose and tailor exactly the work light solution you need. Either you choose the MULTILIGHT BODY CONNECT handle and combine it with a selected light head, or you choose to acquire the body and more individual light heads to obtain a work light solution covering different purposes. Due to the flexible part of the body all light heads can be adjusted in an angle of 120°.

// Universal floodlight for all needs

This new work light is the obvious choice if you need a minor, basic, and universal floodlight that can be used every-where for all purposes. BASIC CONNECT is compatible with METABO/CAS battery system 18 V and all other 18 V/20 V battery packs from leading power tool brands by using the SCANGRIP CONNECTOR. In addition, the SCANGRIP POWER SUPPLY can be used for direct power providing unlimited availability to light.

BASIC CONNECT provides as much as 1000 lumen and can be adjusted in 2 lighting settings, 50 % and 100 % depending on the actual job.

Built-in hook for suspension

// Flexible, rotating lamp head

The design of BASIC CONNECT is very compact, and lightweight, only 340 g without battery. BASIC CONNECT can be positioned on the surface where the battery base is acting as stand. Use the retractable metal hook for flexible suspension. The hook can be turned 360° for flexible positioning.

It is especially characteristic of the BASIC CONNECT that the lamp head has dual axis rotation. This means that the lamp head is 180° flexible from folded position. Furthermore, the lamp head can be rotated 180° sideways providing completely flexible positioning of the light.

// Extremely powerful work light

The new DUO CONNECT is a real "value-for-money" work light considering the extremely high level of lumen output, up to as much as 2500 lumen. The light output can be adjusted in 2 lighting settings, 50 % and 100 % depending on the actual job.

Built-in hook for flexible suspension

// Multifunctional floodlight with two flexible lamp heads

With its two flexible lamp heads DUO CONNECT will be able to provide illumination from any lighting angle you need for the job. Both lamp heads have dual axis rotation which means that the lamp heads can be rotated in all directions independent of each other providing completely flexible positioning of the light source.
When folded the DUO CONNECT is very compact and streamlined.

DUO CONNECT can be positioned on the surface where the battery base is acting as stand. The foldable metal hook is for flexible suspension. For positioning in the height, DUO CONNECT is compatible with the 2 m SCANGRIP TRIPOD, item no. 03.5685.

Use as compact floodlight

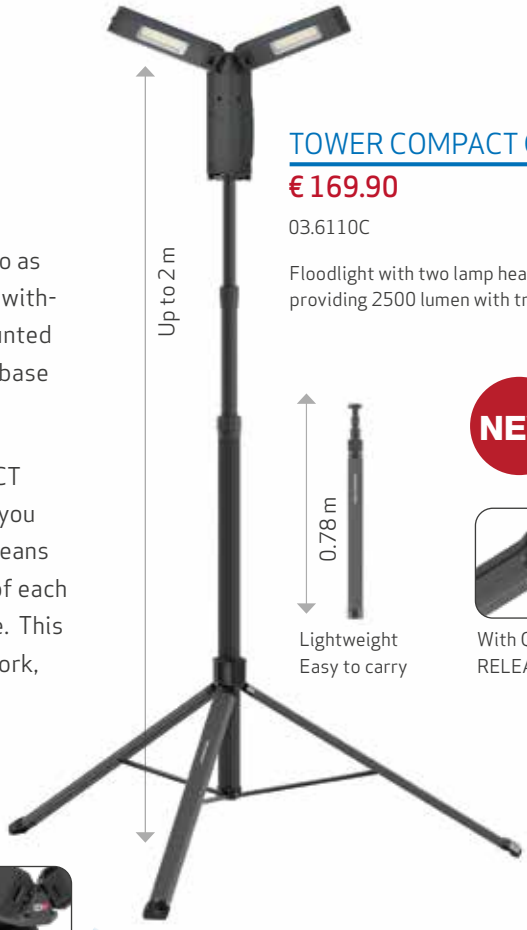

DUO CONNECT
€ 79.90
03.6111C

High-efficient floodlight with two flexible lamp heads providing 2500 lumen

// Powerful floodlight with 2 m tripod with maximum flexibility

The floodlight provides extremely high level of lumen output, up to as much as 2500 lumen, and can be positioned directly on the tripod without any bracket or extra devices. This means that it can be dismounted as easily and positioned directly on the surface using the battery base as stand or positioned by the built-in hook.

Featuring 360° flexible and turnable lamp heads TOWER COMPACT CONNECT provides powerful illumination from any lighting angle you need for the job. Both lamp heads have dual axis rotation which means that the lamp heads can be rotated in all directions independent of each other providing completely flexible positioning of the light source. This provides perfect lighting condition for painting and installation work, for instance.

// High flexibility

Featuring 360° flexible and turnable floodlights, the lights can be positioned in any direction to obtain the desired lighting angle, providing perfect lighting condition for painting and installation work. TOWER 5 CONNECT is extendable up to 2 meters and features 2 level light output (50 % - 100 %) which makes it possible to adjust the light according to the work task.

TOWER 5 CONNECT is compatible with METABO/CAS battery system 18 V and all other 18 V/20 V battery packs from leading power tool brands by using the SCANGRIP CONNECTOR. In addition, the POWER SUPPLY can be used for direct power providing unlimited availability to light.

// Slim design and lightweight

TOWER 5 CONNECT is the ideal mobile work light. Featuring a QUICK-FOLD system, it is fast to set up the tripod in only a few seconds and fold again when the job is done.

In folded position, the TOWER 5 CONNECT is compact and designed for one-hand transport with the integrated carrying handle. The sturdy, slim design and low weight of only 5.2 kg makes the TOWER 5 CONNECT tailored to bring around in the back of the car and convenient to carry around from one worksite to the other.

Use the POWER SUPPLY for direct power

STANDS and SUSPENSIONS

// Designed for direct mounting of the NOVA CONNECT, AREA CONNECT and VEGA CONNECT work lights.

// High stability tripod

The SCANGRIP TRIPOD is indispensable for stationary positioning of the work light for illumination in a specific working area.
The SCANGRIP TRIPOD is extendable from only 1.35 m up to 3 m which gives you complete flexibility to position the light in the requested height.

The stable construction of the SCANGRIP TRIPOD 3M makes it safe even when fully extended. It is supplied with anchor points that provide an opportunity for extra stability if the tripod is exposed to strong wind or standing on an uneven surface. To increase safety when in use, the cable of the lamp can be fixed in the safety clips placed on each separate leg.

// Lightweight TRIPOD with QUICK RELEASE function

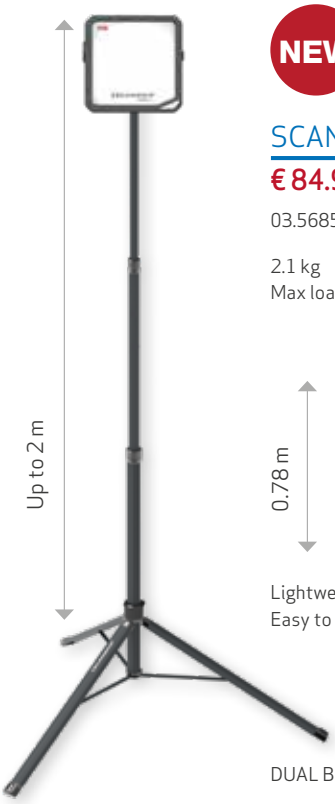

With its lightweight and extremely handy design, the SCANGRIP TRIPOD 2M is indispensable for stationary positioning of the work light for illumination in a specific working area. The tripod is extendable from 0.9 meter up to 2 meters, which gives you complete flexibility to position the light in the requested height. When mounted on the tripod the light can be tilted to provide the optimum beam angle.

Featuring a compact design and QUICK RELEASE function, it is easy and convenient to carry the tripod and set it up where illumination is needed. The tripod is extremely durable and can be applied for both indoor and outdoor use. The stable construction makes it safe even when fully extended. It is made of black painted aluminum.

SCANGRIP® CONNECT

ORIGINAL SCANGRIP

SINCE 1906

// SCANGRIP is Europe's leading manufacturer of work lights for professionals providing the strongest and most comprehensive ranges of work lights with the latest LED lighting technology available on the market.

SCANGRIP is innovation from Denmark and receives strong recognition in the marketplace for its product design, and the products are known for their high quality.

SCANGRIP strives for perfection, and is continuously optimizing and improving light output, battery capacity, design and ergonomics, durability, user-friendliness, and functionality. The aim is to set new standards for professional work lights.

SCANGRIP was established in 1906 and has a long, impressive history of manufacturing high-quality hand tools and work lights for the industrial, construction, and automotive sectors.

SCANGRIP is part of Hultafors Group - a global company offering a unique portfolio of premium brands within personal protection, tools, and other equipment for discerning craftsmen. Together, we are on a mission to create a better day for professional users.
